

Syllabus Format (ERP)

1	Name of the subject	Housing and Community Planning
2	L-T-P	3-0-0
3	Credits	3
4	Name of the Department	Architecture and Regional Planning

5	Status of the subject	(a) Specify the Session, Semester:	Spring
		(b) Please specify the level of the subject:	1 st Year, PG
		(c) Whether the subject will be offered as core or elective:	Core
		(d) The semester in which the subject will be offered:	Autumn
		(e) Name of the program in whose curricula this subject will be included:	MCP

6	Prerequisites for the subject, if any	None
7	Course Objectives	1. Offers comprehensive understanding of multiple dimensions of habitat planning and design. 2. Explains the time-series development, and current prospects in the fields of housing (with an emphasis on affordability and inclusion) and participation of multiple stakeholders. 3. Gives adequate exposure to the national housing scenario, the needs and priorities with a critical review of existing housing policies and programmes by the Government of India. 4. Impart necessary skills and understanding to the students for understanding ground challenges in the field and the solutions adopted in different cases. 5. Gives thorough exposure on principles of housing design (including climate responsive housing), traditional and emerging materials and technologies 6. Introduce students to the global and national housing legislations, housing markets and financing mechanism. 7. To deal with special planning mechanism for in-formal housing including slums, housing for migrants and disaster affected areas. 8. To evolve new methods of pedagogy in the subject by collaborative research and practical exercises with other institutions teaching Housing in India and outside.
